## Week 21 - Confused.com

Dear Members,

Next week's leaked COVID guidance: you can't meet with another person from outside your family with an A or an R in their name unless it's a Wednesday. Family members are OK unless it's the third Monday of the month. People under 5'11" aren't allowed to go to a pub unless they have brown hair. Cat owners are exempt from the above unless their pussy is ginger. Obviously.

Time to be more cautious again methinks. Look after yourselves.

Jilly

## Gill Homer's Garden in Bognor Regis

So, since lockdown, I think that we all have appreciated spending more time in our gardens, although I have found it frustrating as a demonstrator not being able to use my foliage up as usual. Hardy Plumbago (left). Passion Flower (below).

I have been very busy with my florist business and have very much enjoyed working outside in the sunshine. Equisetum (Snake Grass) in the photos below.

Exercise makes you look  
better naked!

So does alcohol .....

Your choice!

There are two ways of  
arguing with a woman.  
Neither one works.

During a routine medical examination of his  
female patient, the Doctor says:

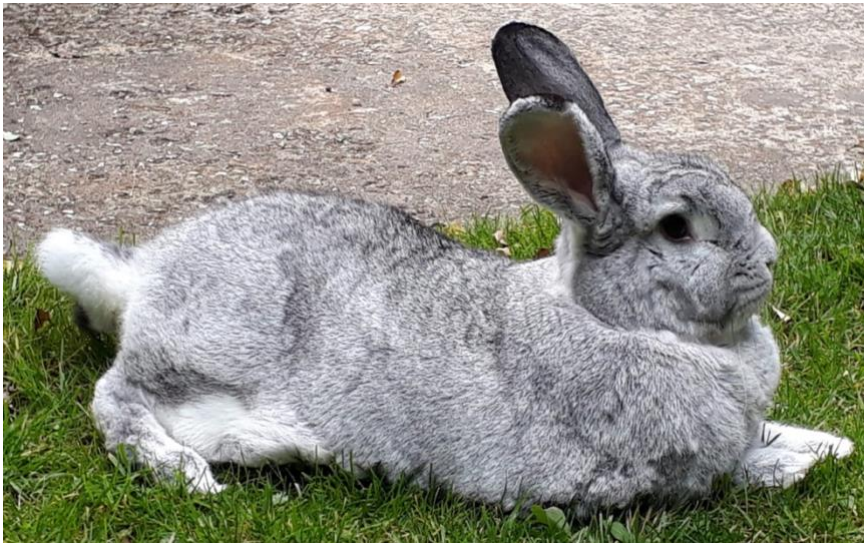

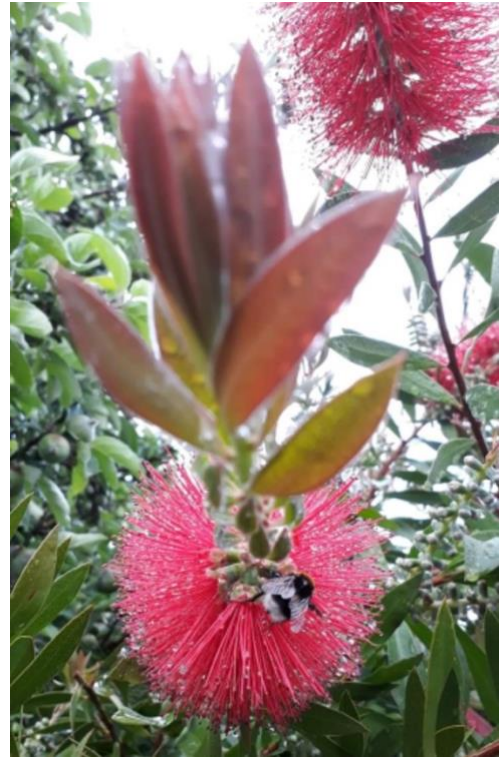

"Your heart, lungs, pulse and blood pressure  
are all fine. Now let me see the part that gets  
you ladies into all kinds of trouble."

The lady starts hitching up her dress but is  
interrupted by the Doctor.

"No, no, no! Just stick out your tongue."

We grow a variety of Australian plants - including Bottlebrush (Callistemon - attractive to bees, see photo right) and Kangaroo Paw (Anigozanthos) all of which have flowered brilliantly this summer. My lovely big bunny Simon helps us with the weeding!

Thank you, Gill, for showing us your choice plants. When Gill and I were training to be demonstrators, I was so envious of her Kangaroo Paw. As for Simon (left), what a beauty! Even I couldn't put him in the pot (although I do have a rather nice red that would go with him!!!!).

Due to Covid-19, for the first time since 1945, the National Spelling Bee is cancel....cancel ....  
cansel ...

It's been called off.

## **Employee Notice**

Given the current economic crisis due to the pandemic, the Government has decided to implement a scheme to put workers of 50 years of age and above on early, mandatory retirement, thus creating jobs and reducing unemployment.

This scheme will be known as RAPE (Retire Aged People Early).

Persons selected to be RAPED can apply to the Government to be considered for the SHAFT program (Special Help after Forced Termination).

Persons who have been RAPED and SHAFTEED will be reviewed under the SCREW programme (System Covering Retired-Early Workers).

A person may be RAPED once, SHAFTEED twice and SCREWED as many times as the Government deems appropriate.

Persons who have been RAPED could get AIDS (Additional Income for Dependents & Spouse) or HERPES (Half Earnings for Retired Personnel Early Severance).

Obviously persons who have AIDS or HERPES will not be SHAFTEED or SCREWED any further by the Government.

Persons who are not RAPED and are staying on will receive as much SHIT (Special High Intensity Training) as possible. The Government has always prided itself on the amount of SHIT they give our citizens.

## How's Your Pond Life?

It's been nearly 10 years since I've had a garden and, recently, I've had a hankering to get my hands dirty again. Imagine my joy when one of my meandering walks took me to the far corner of The Archbishop's Park - a little-used green space alongside Lambeth Palace, opposite St Thomas's Hospital, near Westminster Bridge - and I spotted a sign advertising a Gardening Club on a Friday afternoon. It just so happens that Friday is a 'me' day: lie-in, Pilates lesson, and preparation for the weekend (with 3 of my flower clubs meeting at the weekend, plus rugby matches, I'm often busier then than during the week).

I was looking forward to my first session and guess what task I was assigned? Pond clearing! Surprisingly, I thoroughly enjoyed myself. I had size-10 waders on, which came up to my wotsit, cautiously testing the depth of the pond with a stick, only to find it barely reached my ankles, and I learnt all about Planorbidae - the black Ram's Head Snail. This small mollusc has a shell which resembles a ram's head (hence the name) or coiled rope. A colony of these snails shows your pond has a harmonious ecosystem. Who knew? If you don't have any, you can buy them on the internet or from your local water garden centre.

They live in the margins of the pond and eat algae, dead vegetation, algae, dead fish and snails and yet more algae. They much prefer the softer algae, but they will eat leafy vegetation if there's not enough food for them or if they've had a baby boom. So, if you notice them on your pond plants, it might be time for a cull. I don't believe these critters are edible, but I did used to breed snails for the pot - I can give you a mean Bloody Mary Escargot recipe if you wish!

I can't wait for my next session and, if I'm good, I might get the opportunity to don a beekeeper's suit and work on the hives. What fun!

Gaenor's answers to the Flowers, Herbs or Trees Quiz. Has she been demoted to evil again?
