

## **National Chairman's Resignation, October 2020**

**It is with great sadness that I write to inform you that our National Chairman, Dr Christina Curtis, has tendered her resignation** this morning with immediate effect.

Recently, the loss of the Diamond events and the impact of the pandemic have added immense pressures to the role of NAFAS Chairman. Christina has worked tirelessly for NAFAS through her two-year period as Vice Chairman and the past 12 months as Chairman, however the added pressures of the role have had an impact on Christina's health and wellbeing, and it is for these reasons that the Board and I have reluctantly accepted her resignation. I have attached her resignation to this post.

I would like to acknowledge Christina's dedication to NAFAS and hope that we can all meet again soon in more socially easier and enjoyable circumstances.

As the recently elected Vice Chairman, I will step up and take on the role of Chairman and work with my fellow Trustees to steer the Association to more prosperous times.

For and on behalf of the Board

Katherine Kear MDPF,

New National Chairman
